WAR STORM GATHERING OVER BALKAN STATES

Developments Which Have Been Expected In
The Balkan States Now Seem To Be Under
Way. Bulgarians Have Invaded Macedon-
ia and Occupied Several Greek Forts. Allies
Have a Large Force At Salonika And Are
Preparing For The Teutonic Offensive.
Germans Still Active On Verdun Front.
Fierce Air Attacks Were Made By French
Airmen. Austrians Captured Fortified Pos-
itions From Italians.

(By Associated Press)

Paris, May 29.—A news dispatch from Athens says grave trouble has broken out there, following an invasion of Macedonia by the Bulgarians. It was officially reported last night that the Bulgarians occupied without resistance the Greek forts of Rubel, Dragotin and Spatovo.

(By Associated Press)

London, May 29.—The Germans have renewed their activities on the west side of the Meuse in the Verdun region, debauching from Corbeaux Wood and driving against the French lines to the west of Cumieres village. Paris declares these attacks were repulsed. The situation in the Balkans indicates that important developments will take place in the near future. It is estimated that 25,000 Bulgarians are now on Greek soil. The whole entente allies are preparing for an expected offensive and are reinforcing accordingly. An aggressive campaign on a large scale by one side or the other seems a strong probability.

Berlin today reports a continuance of violent artillery engagements on both sides of the Meuse. The only infantry activity mentioned was an attempt by the French on Cumieres line.

GROW WINTER FEED.

Regarding silage and other feeds needed for winter to maintain the dairy cows the extension department of Clemson College very truly says: "It is now full time to begin figuring on the feed supply for the coming winter. We must keep our cows in good flesh if we expect them to do their best for us. Every dairyman who has 10 or more cows cannot afford to go through another winter without a silo of sufficient capacity to feed each cow in his herd 25 to 30 pounds of silage per day or approximately 1000 pounds per month, for at least six months in each year. Plant one-fourth more acreage than you figure to fill your silo, in corn or sorghum, so that should the drought shorten the crop you will still have enough to fill the silo. "Grow and save enough legume (or other) hays to feed each cow five to

eight pounds per day if you are feeding silage as above suggested. This would require from 1000 to 1200 pounds per cow for the five winter months. If you do not have silage you should save 16 to 18 pounds, or 11-14 tons, of hay per cow. This will depend on the size of the cow. She must have her stomach full for best results. It is cheaper to fill her on silage and hay than on grain.

Fierce Air Attacks.

(By Associated Press)

Paris, May 29.—Fifteen attacks in one day on one section of the front were made by a French air squadron on German planes, the Frenchmen succeeding in bringing down two machines. One of the most spectacular battles was north of the Aisne, where a French machine was virtually cut to pieces by German machine gun fire, but the pilot managed to land safely.

Austrians Still Gaining.

(By Associated Press)

Vienna, May 29.—The Austro-Hungarian troops captured the fortified positions west of Arsiero, the war office announced today. A fortified dam also was taken.

Closing in on Germans.

(By Associated Press)

London, May 29.—British, Belgian and Portuguese troops are slowly closing around the Germans in German East Africa. General Smuts, the Boer commander, is rounding up the Germans on the Usanbara Railroad and occupied important stations on that line.

BLOOD IS FOUND BY THE SHERIFF

A Trail of Blood Was Discovered This Morning at the Old Rhode Corner. Investigation Is Made.

Sheriff T. C. Nunn was somewhat puzzled this morning when a trail of blood was discovered at the old Rhode corner on Main and West Anderson streets. The blood seemed to have been from a human and the first notice of same was found about middle way back from the corner of the building on Anderson Street. The trail came toward Main Street and around the corner past the front of the building and then across to the edge of the walk and out into the street, where it disappeared. The sheriff made considerable investigation into the matter but could find no clew upon which to work. It is his theory that some one was stabbed at this place during Sunday night and walked around the corner into the street and got into a vehicle and was carried away. Nothing can be found out to lead to the discovery of any trouble.

AMUSEMENTS.

Tonight starts off a week of pictures at the Deltic that couldn't be better. A real treat at this favorite playhouse every day this week. Start tonight and see every bill this week. Beautiful Nell Craig and Handsome Darwin Karr in "Millstones"; Grace Williams and Curtis Cooksey in the first of the new Edison features; Ham and Bud in one of their best comedies, "Millionaires by Mistake." Also a fine number of the Selig News Weekly. Tomorrow brings one of the best Paramount features yet shown at the Queen, Mary Johnston's famous novel, "To Have and to Hold."

STATE CANDIDATES MUST HUSTLE UP

State Chairman Waples Says Applications to Get on Ballot Must Be In by June 5.

(By Associated Press)
Fort Worth, Texas, May 28.—Chairman Paul Waples of the State democratic executive committee, today issued a warning to state candidates that applications to be placed on the official ballot must be made to him before June 5, as the law prescribes.

Candor compels some men to admit that they are above the average.

JAMES J. HILL PASSED AWAY

Great Developer, Railroad Builder and Financier Called By Death.

(By Associated Press)

St. Paul, Minn., May 29.—James J. Hill, railroad builder, capitalist and most widely known figure of the Northwest, died at his residence today at 9:30, aged 78. He was unconscious nearly twelve hours before he died. No arrangements had been made today for the funeral. His death was caused by an infection due to bowel trouble from which he had been ill two weeks.

VISITORS TAKE NOTICE.

Those who are desirous of visiting in the Bryan Hospital will please note that our visiting hours are from 2 to 4 and 6 to 8 p. m. Please make your visits accordingly.

WASHINGTON WAITS ON CARRANZA NOTE

Special Agent at Mexico City Says Should Have Reached Washington Sunday.

(By Associated Press)

Washington, May 29.—Special Agent Rodgers at Mexico City telegraphed the state department that the Carranza note should have reached Washington yesterday. He has been assured it will not be made public until it is delivered to Secretary of State Lansing.

Carranza Official in Washington.

(By Associated Press)
Washington, May 29.—Manuel Mendez, an attaché of Carranza's foreign office, arrived here today and conferred with Flaseo Arredondo, Mexican ambassador, but denied that he brought a note protesting against the presence of American troops in Mexico as expected, or that he brought any instructions from the first chief. He declared he was merely here on a vacation. Ambassador Arredondo and other Mexican officials professed to be puzzled.

The G. O. P. leaders think it would be a splendid compromise if Roosevelt would write an Americanism platform and then let them nominate Burton on it.—Kansas City Star.

E. F. PARKS & COMPANY

We sell the Hoosier Kitchen Cabinets on the club plan, \$1.00 down and \$1.00 each week.

A SCIENTIST'S PLEA FOR EARLY MARRIAGE.

In the June American Magazine Dr. Alexander Graham Bell, inventor of the telephone and now investigating the causes of old age, makes the following plea for early marriage:

"My investigation has convinced me that the opposition to early marriages is a very unwise thing, so far as longevity is concerned," he declares. "As a general rule, indeed a very general rule, the younger the parents the longer their children live. In my analysis of the longest and most reliable genealogy in New England, I found two cases of mothers who, being sixteen years old when their first-born came into the world, had children who lived to a tremendous old age."

WAITE WOULD PAY PENALTY

Gave Out Statement Saying That He Wished No Appeal Taken in His Behalf.

New York, May 29.—A declaration that he wishes no appeal in his behalf was contained in a statement issued from his cell in the Tombs Sunday by Dr. Arthur Warren Waite, convicted Saturday of the murder of his father-in-law, John E. Peck, of Grand Rapids, Mich.

"I am willing to take the punishment for my ill deeds and the quicker that punishment comes the better," he said.

JUSTICE COURT.

Justice of the Peace McGee called the civil docket in the justice court this morning and a few cases went by default for the want of prosecution. The case of the First National Bank of Bryan vs. R. A. Parker et al, suit for judgment on a promissory note, was called and has taken up the better part of the day.

REPUBLICANS ARE LAUNCHING BOOMS

Organizations Are Being Perfected. Booms Are Being Prepared—Col. Roosevelt to Be on Hand.

(By Associated Press)

Chicago, May 29.—The first two organized booms for the republican nomination for presidency were opened here today in advance of the national convention next week by the supporters of Justice Hughes of New York and Coleman Dupont of Delaware. It is expected that Governor Whitman of New York will make Justice Hughes nominating speech. Hughes will not have any headquarters, Frank H. Hitchcock, his manager, said today, "but friends will work as individuals." Manager Hitchcock is sure that Hughes will accept if nominated.

Indications point to a hot contest over the question of woman suffrage before the resolutions committee. Chairman Hilles announced that both sides would be given an equal hearing.

Colonel Roosevelt was expected to arrive today. He is en route to Kansas City, where he speaks tomorrow.

SEWER UNDER CONSTRUCTION.

City Engineer Adams started a crew of 20 men to work this morning laying a sewer line on Anderson Street, which is the first to be paved in the residence district. The length of this sewer line will be 1900 feet and will give service to quite a number of people who have not already had same. Let these good permanent improvements continue.

Women dislike a womanly man as much as men dislike a manly woman.

OVERCOMES DIFFI- CULTIES WITH SMILE

Manager L. M. Levinson of Local Rail-
Way Is Man Who Does Things
and Smiles at Trouble.

Manager L. M. Levinson of the Bryan and Central Texas Interurban, is a citizen of Bryan that we need many more like. He is a man that believes in doing things, regardless of the difficulties that may confront him, and here is his last achievement: Freight and other traffic over this road was put out of commission last Friday until some repair work could be done on the bridge which spans the Little Brazos River on this line. Mr. Levinson had inaugurated a regular schedule for passenger service and he was determined to give his patrons the service he had promised. In order to do this he got hold of his inspection motor car, which accommodates eight passengers, and ran same right on schedule time. A force of workmen were driving piles at the river trestle and at this point the motor inspection car was taken by these men and pushed across the river on the wagon bridge and replaced on the track in a few minutes, and the journey to the end of the line was completed. This operation was repeated on the return trips. Now we claim this is going some and is a good demonstration of this enterprising manager's ability to overcome obstacles that come before him.

Mr. Levinson announced this morning that the bridge had been repaired and that Saturday afternoon the regular train left on schedule time. He made a trip to the end of the line this morning and found everything running smooth, and with the exception of a 36-hour delay in freight service, nothing had gone wrong.

COMMERCIAL CLUB DIRECTORS TO MEET

Annual Election of Officers to Be Had Tomorrow at 10 O'clock—Meeting in Club Room.

The annual meeting of the directors of the Bryan and Brazos County Commercial Association is scheduled to be held tomorrow morning at the club rooms at 10 o'clock. At this meeting the officers for the incoming year will be elected. The reports of the officers for the past year will be gone over and disposed of. Other matters of interest are to be brought up and each and every director is expected to be present. The outcome of this meeting is looked forward to with much interest among the citizens as at this time an outline will be made by the directors for the work to be accomplished by the club during the coming year for the betterment of Bryan. In the steps that are being made in the way of civic improvement right at the present time, many things hinge on the work of this body of men.
